

Eternity Solar Calculator for your Online Visibility

- ☑ Self-consumption calculation
- ☑ Battery system evaluation
- ☑ Based on satellit images
- ☑ PDF reports

The **Eternity Solar Calculator** is an interactive tool for your website visitors that allows them to estimate the potential of a new photovoltaic system with various options.

Precise

Unlike other solar calculators, the Eternity Solar Calculator simulates the designed PV system. Various factors such as local electricity tariffs, self-consumption and batteries are taken into consideration. The integration of satellite images enables an even more precise simulation.

Customer-oriented

The Eternity Solar Calculator focuses exclusively on the needs of your customers. The calculator enables a fast and meaningful estimation of the potential of a PV plant, which simplifies the communication between supplier and customer and encourages the inquiry for an offer.

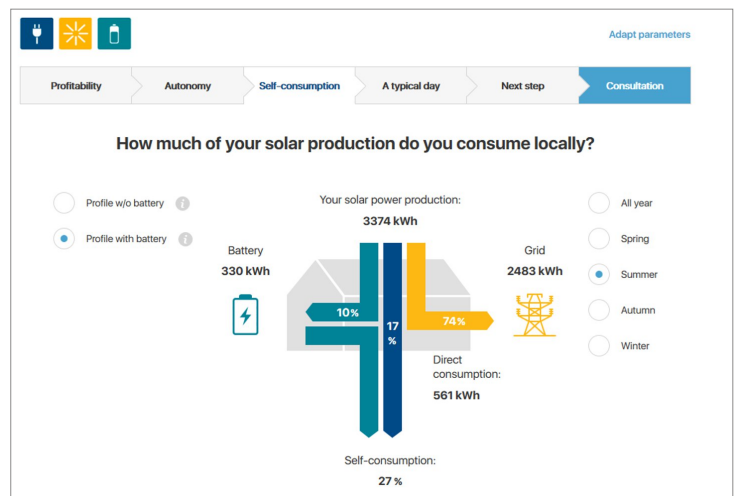

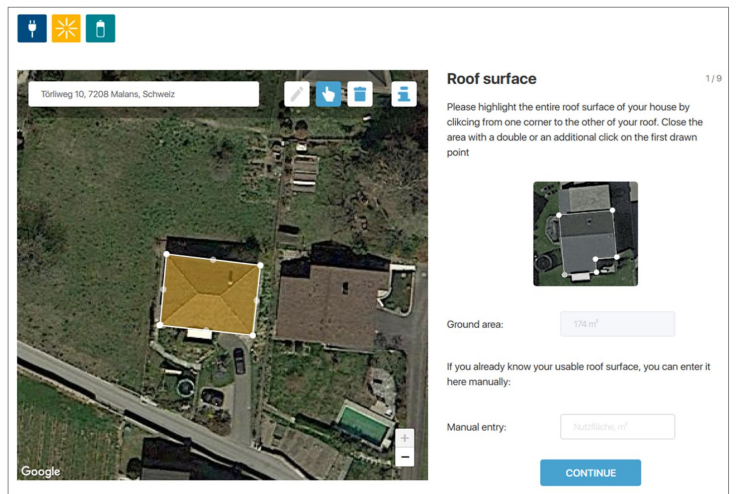

Individual

The Eternity Solar Calculator can be visually adapted to your company. Colours and logo can be designed individually. Furthermore, the calculator can be effortlessly integrated into your own website.

Multifunctional

If desired, the Eternity Solar Calculator can be complemented with additional functions such as the Eternity Solar Expert, PDF reports and various other add-ons.
